The Empress Shoe Needs No Breaking In

An ill-fitting shoe won't fit by stamping your foot into it.

The Empress Shoes fit so well that you put your foot into it easily—and you can wear it right away.

A shoe that must be "broken in" is wrong in construction, or it doesn't fit you. Perhaps you have broken up your poor feet by "breaking in" such bad shoes.

Get the shoe that is made on the lines of your natural foot and you won't have to "break it in" or stuff it out with cotton, or build it up with insoles.

Empress Shoes need no "breaking in." They fit and they are just as stylish as the latest fashion requires.

AROUND THE TOWN

C. Hiebert is in Edmonton on business bent.

Mr. and Mrs. Norman Clark were visiting friends in Stettler over the week end.

E. E. Long of Lamoni, Iowa, was a visitor with J. N. Paton for a day or two last week.

L. Stanton of Bellingham, Wash., was visiting his friend, Mr. W. F. Sick, for a few days last week.

Mayor H. B. Atkins is a visitor in Edmonton taking in the meeting of the Alberta Fairs Association.

The Didsbury Orchestra will hold another of their successful dances on Friday night in the Opera House.

Frank Reek returned from Rochester, Minn., on Thursday last. He left Mrs. Reek in pretty good spirits and she had stood the operation successfully.

G. E. Rice of Wetaskiwin has been a business visitor in town for the last two weeks. We hope to be able to report good news from his visit in a short time.

J. R. Good, manager of the Alberta Culvert Co., left for the north on business on Wednesday night. He will visit Wetaskiwin, Edmonton and other places before returning.

Mrs. Ed. Cressman of Cochrane, Alta., who has been visiting her brother James Gateman, left for her home on Monday. Mr. and Mrs. Cressman intend moving to the coast in March.

The Toronto Globe (daily) last week reported the fact that the shower of meteors reported in the Pioneer last week was also seen in Ontario, although it was about two hours earlier than they were seen here.

J. A. Gilchrist and Mrs. Gilchrist of Red Oak, Iowa, arrived in Didsbury last week on a visit to their brother and sister, Mr. and Mrs. Gus. Gilchrist. Gus still remains very ill at his residence. Mrs. J. A. Gilchrist is a sister of Mrs. Gus. Gilchrist.

The special meetings in the Evangelical church are still being continued. Able assistance has been given by Rev. L. H. Wagner of Regina and Rev. A. Clemence of Milk River, Alta. There was a large attendance at each of the three Sunday services, which were in charge of the two above named men.

Knox Presbyterian church was well filled on Sunday night last to hear Rev. W. Shearer, Supt. of Missions for central Alberta. Mr. Shearer is a forcible speaker, and through his plain speaking and comprehensive manner in which he places his subject before his audience a child can understand him. After the sermon he gave a short talk on the Mission work in his field which comprises a territory of 86,000 square miles right in the heart of Alberta, and he is enthusiastic over the outlook for a great country, but stated that it was the duty of the people who were here now to see that right foundations were laid for this future.

A criminal case came up before Magistrate Atkins last week when A. Aultman was fined \$32.50. This man should have been given so many hours to get out of town. Characters of this kind are not wanted here, and if he had been given the extreme penalty of the law, imprisonment as well as being heavily fined, it would have been no more than he deserved.

**Bought Horses,
Value \$4,000**

Two horse dealers were in town last week and purchased a large number of horses in the district, for which they paid \$4,000. They were directed to the Didsbury district through the recommendation of the horse judges who attended the Didsbury Fall Fair last year and the consequence was the district was enriched to that amount by the Fair.

Town Well Gives Lots of Water

The new town motor pump was installed at the drilled well at the electric power house about ten days ago and it has been in constant use ever since. This pump has a capacity of approximately 1500 gallons per hour, and as it was run for eight hours one night to fill up the old dug well there were 12,000 gallons of water pumped and it made no impression on the water level to all appearances as the stream was coming as strong when they stopped pumping as when the pump was started. The water is also very soft. Supt. Mjolsness states that this pump can be run continuously and the flow of water in the well is big enough to supply pump at maximum capacity.

This explodes all rumors as to the inefficiency of the well to supply the water, and as soon as the tank is erected it will give the town a good asset for fire fighting purposes as well as for the power house and then some.

Masons Will Dedicate New Hall

King Hiram Lodge, A. F. & A. M., held their first meeting in the new lodge room over the furniture store on Tuesday night last. The lodge room is a credit to the members of King Hiram, and it is doubtful if there is a better in the whole of Alberta, considering the size of the lodge. The floors are covered with inlaid linoleum and carpet emblematical of Masonry and the officers chairs, settees, and other furniture are all of oak and mahogany upholstered in black leather. Altogether the rooms present an extremely handsome appearance.

Big preparations are under way to prepare for the dedication of the lodge room and the lodge of instruction which will be held on Friday, Feb. 28th, commencing at 2 o'clock in the afternoon, and for which ceremonies Grand Master Robertson and other grand officers will be present. Delegates from the eight Masonic lodges in this Masonic district will be present and it is expected that all the members of King Hiram will keep this date clear and attend these meetings without fail.

IN our news columns we report the fact that two horse dealers visited the Didsbury district last week and purchased horses to the value of \$4,000. These gentlemen came to this district through the recommendation of the horse judges who attended the Fall Fair last year. Do you see the point. Through the holding of the Didsbury Fall Fair this district was enriched to the amount of \$4,000 in actual cash and besides this there are other cash transactions made indirectly (which, as no record can be given, the district does not realize) because of the Fair. The above may look mercenary but there is also another way of looking at this matter. If we had no Fall Fair to bring out the points on good stock for the education of the farmers it is not likely that these judges would give such a recommendation as they evidently did, and which was backed up by the farming community in raising good stock which received this advertising through the Fall Fair. Does it not look as though we should help along the good work by becoming members of the Agricultural Society and helping to make the Fall Fair a better success than ever and by taking more interest in preparing exhibits. This is the time to start. Lay your plans for next fall and make the Fair a bigger success than ever. Even if you do not win prizes the experience and knowledge gained will be worth while and perhaps enrich your pockets as well.

Sexsmith Nominated

A large and influential meeting of Liberal-Conservative delegates from all over the Rosebud constituency was held at Wriggleworths hall on Tuesday afternoon for the purpose of nominating a candidate to carry the Liberal Conservative banner at the forthcoming provincial election. A great deal of enthusiasm for the cause was shown by those present and the opinion was expressed that the Conservative party in this riding never had a better chance to win out.

Mr. C. L. Moore of Carstairs was elected to the chair pro tem and Mr. H. S. Patterson secretary pro tem.

It was decided that names for candidates should be placed in nomination by ballot. The ballot being taken it was found that only two men were nominated, Mr. S. Scarlett of Carstairs and Mr. G. B. Sexsmith of Didsbury.

Mr. Scarlett absolutely declined the nomination in favor of Mr. Sexsmith and stated that he did not have the first idea that his name would be brought before the convention. He thanked the delegates for their good intentions but would do all in his power to support Mr. Sexsmith.

Those present were then called upon for their opinion of Mr. Sexsmith by a standing vote. There was not a dissenting vote, the mass of delegates present rising like one man in support of Mr. Sexsmith.

Mr. Sexsmith accepted the nomination, and in a few words expressed his thanks to those present for the honor conferred on him and asked for the loyal support of those present to assist him in winning their battle.

Mr. Geo. Campbell of Wetaskiwin was present and addressed those present on the political situation and also in respect to the Liberal-Conservative platform. Mr. Campbell is a fluent speaker and needless to say that he kept the attention of his hearers.

The election of officers for the Rosebud Liberal-Conservative Association then took place and resulted as follows:

Hon. President—E. Michener, M. P. P., Red Deer.
Hon. Vice-President—S. Scarlett, Carstairs

President—H. S. Patterson, Didsbury.
Vice-President—C. S. Moores, Carstairs.
Sec.-Treasurer—H. W. Chambers, Didsbury.

The Presidents of the different Associations throughout the constituency are members of the executive committee to which the following names were also added:

Dr. Elliott, Swallowell; Geo. Hamill, Carstairs; J. H. Braun, Westcott; R. Hollinger, Sunnyslope; C. S. Pope, Carleton; M. J. Parker, Three Hills; A. Wheeler, Acme; W. Gilmore, Harman; R. Siddons, Westward Ho; Chas. Everett, Three Hills.

The meeting then dispersed with three cheers for G. B. Sexsmith the conservative candidate of the Rosebud constituency.

Knox Church Annual Meeting

The Knox church Presbyterian congregation held their annual meeting on Monday night in Wriggleworths hall, the ladies of the congregation supplying a very appetizing and substantial supper for the occasion.

There was a very good attendance of the members and adherents of the church, and after they had done full justice to the good things provided, settled down to the business of the evening.

Rev. D. S. Marshall, pastor of the congregation, and Mr. Shearer, Supt. of Missions, both addressed the meeting, after which reports of the different branches of the church was given and shown to be in a very satisfactory condition; \$1,794.63 was the revenue of all branches for the year. The whole indebtedness of the church amounts to \$393.89.

The election of managers of the church then took place and resulted as follows: H. W. Chambers, G. B. Sexsmith, H. S. Patterson, H. E. Osmond, W. G. Liesemer, A. G. Studer, J. Sinclair, P. R. Reed.

After singing the Doxology the meeting came to an end.

LITTLE VICTIMS OF ST. VITUS DANCE

It is Most Common Among Chil-
dren of the School Age.

If your child—whether boy or girl—is
fidgety, emotional and awkward,
you should watch it carefully as it may
develop St. Vitus dance. Frequently
children cannot keep still, they move
with strange actions, their limbs jerk
and their features twitch nervously.
Speech is confused and the whole mus-
cular system not under control. These
are among the symptoms of St. Vitus
dance, a trouble that afflicts growing
girls and boys, most frequently dur-
ing the school age. Dr. Williams' Pink
Pills are such a splendid nerve-
tonic that they have cured the worst
cases of St. Vitus dance. They do
this because the new, rich blood they
make feeds and strengthens the starv-
ing nerves, thus throwing off the dis-
ease. Here is an example. Mrs.
L. L. Gifford, Westover, Ont., says:
"For over two years my little girl, Con-
stance, was a sufferer from St. Vitus
dance. She was frightened badly by a
dog, which seemed to bring on the
trouble, and notwithstanding all we
did for her it seemed to be growing
worse. She grew so bad that she
could not feed herself and her speech
was so badly affected that we could
scarcely understand her. The twitch-
ing and jerking of her limbs was pit-
iable. At this juncture we began giv-
ing her Dr. Williams' Pink Pills, and
to our great joy they have completely
cured her, and she is now as healthy
a child as you can find."

Dr. Williams' Pink Pills are sold
by all medicine dealers or sent by
mail at 50 cents a box or six boxes
for \$2.50 from The Dr. Williams'
Medicine Co., Brockville, Ont.

There was a terrific explosion off to

Schnachlitz turned pale as a ghost.
By St. Ikem! he cried, they have

No General, replied his chief aide-
de-camp, looking at the same through
his field-glasses. It is only the mov-
ing picture people taking a flash-light
of the Royal Scullery Guards in a foot-
ball scrimmage.

AS TO FLAVOUR
Found Her Favorite Again

A bright young lady tells how she
came to be acutely sensitive as to the
taste of coffee:
"My health had been very poor for
several years," she says. "I loved
coffee and drank it for breakfast, but
only learned by accident, as it were,
that it was the cause of the constant,
dreadful headaches from which I suf-
fered every day, and of the nervous-
ness that drove sleep from my pillow
and so deranged my stomach that ev-
erything I ate gave me acute pain."
(Tea is just as injurious, because it
contains caffeine, the same drug found
in coffee).

"My condition finally got so serious
that I was advised by my doctor to
go to a hospital. There they gave
me what I supposed was coffee, and I
thought it was the best I ever drank,
but I have since learned it was Post-
um. I gained rapidly and came
home in four weeks.

"Somehow the coffee we used at
home didn't taste right when I got
back. I tried various kinds, but none
tasted as good as that I drank in the
hospital, and all brought back the
dreadful headaches and the 'ick-all-
over' feeling.

"One day I got a package of Post-
um, and the first taste of it I took, I
said 'that's the good coffee we had in
the hospital!' I have drunk it ever
since, and eat Grape-Nuts for my
breakfast. I have no more head-
aches, and feel better than I have for
years." Name given upon request.
Read the famous little book, "The
Road to Wellville," in pkgs. "There's
a reason."

Hard to Explain

Mr. Wedgwood Benn, M.P., tells this amusing incident of his life in Parliament. Once when his Party were particularly anxious to have a large attendance of Members at the House, after sitting all night, it was decided to send telegrams to those who were not in attendance, stating: "Awaiting you at the House."

Unfortunately, the telegrams were accidentally sent to several members who were present, with the result that upon their returning home and explaining to their wives what a terribly busy night they had had at the House, trouble ensued.

SORE FROM ELBOWS TO FINGERS

ZAM-BUK WORKED A MIRACLE OF HEALING

Reverend Gentleman Fully Corroborates

Miss Kate L. Dolliver, of Caledonia, Queen's Co., N.S., says: "I must add my testimony to the value of Zam-Buk. Ulcers and sores broke out on my arm and although I tried to heal them by using various preparations, nothing seemed to do me any good. The sores spread until from fingers to elbow was one mass of ulceration."

"I had five different doctors, and faithfully carried out their instructions. I drank pint after pint of blood medicines, tried salve after salve and lotion after lotion; but it was of no avail."

"My father then took me thirty miles to see a well-known doctor. He photographed the arm and hand. This photograph was sent to a New York hospital to the specialist; but they sent word they could do nothing further for me, and I was in despair."

"One day a friend asked me if I had tried Zam-Buk. I said I had not, but I got a box right away. That first box did me more good than all the medicine I had tried up to that time, so I continued the treatment. Every box healed the sores more and more until, to make a long story short, Zam-Buk healed all the sores completely. Everybody in this place knows of my case, and that it is Zam-Buk alone which cured me."

Minister corroborates.—The Rev. W. B. M. Parker of Caledonia, Miss Dolliver's minister, writes: "This is to certify that the testimonial of Miss Dolliver is correct as far as my knowledge goes. I have known her for a year and a half and her cure effected by Zam-Buk is remarkable."

Wherever there is ulceration, blood poison, sores, cold-cracks, abscesses, cuts, burns, bruises, or any skin injury or disease, there Zam-Buk should be applied. It is also a sure cure for piles. All druggists and stores sell at 50c. per box, or post free from Zam-Buk Co., Toronto, for price. Refuse cheap and harmful imitations and substitutes.

HER HEARING RESTORED

Astonishing Deliverance of Woman Thought to be Hopelessly Deaf
NEW YORK (Special Despatch).—Fully convinced that her hearing has been permanently restored after years of torture with head noises and almost total deafness, Mrs. B. C. Barry of 555 W. 170th St., N.Y. City, has now been persuaded to tell the story of her wonderful deliverance.

After having spent hundreds of dollars on mechanical devices, medicines and doctors' fees, she decided that this latest discovery, however simple and inexpensive, should be the last she would try before resigning herself to the hopelessness of permanent and total deafness. Those interested in Mrs. Barry's case and the hope it holds out for them, may write to her in confidence for full details, which she offers to send gratuitously.

It seemed unlikely. That she had not expected to see him and did not at first recognize him, was on the other hand, as evident as was the genuineness of Sarto's rage when he saw her in Harry's arms.

But what a range of instinct had warned her of Reuben's danger that she should hurry up to London by the early train on Sunday in order to inquire after Harry's cousin?

And for what reason had she been so passionately anxious to secure Reuben's letter?

With a sickening feeling of horror, the memory flashed across Harry's brain that Reuben had accused Anne of employing not only the Annings, but Sammy, as her tool. Certainly, she took an extraordinary interest in the repulsive-looking natural, and seemed to wish on all occasions to screen him from the punishment meted for his villainies.

That Sammy had attacked Reuben in the train and flung him from the door seemed certain. Harry had identified his cousin, who looked strangely peaceful and dignified in death. The over-alert, cunning expression, the vulgar winks and grins with which he had accompanied his talk had gone for ever, and only the handsome Clavel features he had inherited from his mother remained.

The compartment in which he had travelled from Crayborne showed some evidence of a struggle in the disordered cushions and carpet, but Harry's evidence was reserved for the inquest.

The mere mention of his name excited considerable interest.

My name is Clavelworth. Down here I was called Worth. Sir Olan Clavel was my late father's brother, he had informed Inspector Hutchins in the presence of the landlord of the King's Head Hotel. And both men were supplied by his statement with abundant food for talk in their private family circles.

Inspector Hutchins eyed Harry with evident suspicion when the young American informed him that in the hurry of leaving London, and the anxiety he had felt over Lady Anne's indisposition, he had lost Reuben's letter.

I am returning to London by the 10.33 from Crayborne, after I have seen Lady Anne back to her home, Harry explained. I will inquire at the Cyril Hotel after the missing letter.

You are the last person known to have seen Mr. Symonds alive, the Inspector said, and of course, your testimony will be wanted at the inquest. From what I have heard, it will be fixed for Wednesday morning early. There is evidence to be worked up first, medical and otherwise. As soon as I know the exact hour from the coroner I will let you know at the Cyril Hotel.

Harry's next business was to find a conveyance in which to drive Lady Anne over to Crayborne, a difficult task on a Sunday evening. He found her pacing up and down the coffee-room when he came to tell her the carriage was ready.

You have seen him? she began eagerly. Is it really your cousin? And was it, as I hope, an accident?

It was my cousin, and I do not think it was an accident, but that he was violently thrown from the train. In my opinion the murderer was Sammy.

You did not say so? she asked quickly.

No. But I shall certainly tell at the inquest that I saw Sammy creeping along on the other side of the train.

When is the inquest?

Early on Wednesday, I believe.

Lady Anne said nothing more until they were seated in the dog-cart and Harry was driving them to Crayborne for he had found it impossible to hire a driver.

What did your cousin say in that letter? she then asked.

Harry turned to look at her.

Don't you know, Anne? he inquired.

How should I?

Then you did not take the letter? I tried to. But as you know, you refused to let me have it.

You did not take it afterwards—during our drive from London.

She stared at him haughtily.

Do you really think I should pick your pocket? she asked.

No, of course I don't think so, he returned heartily. It must have been taken by the man who calls himself Leopold Sarto.

She was silent for a few seconds.

That seems rather an absurd idea of yours, she then remarked.

You tell me this man is a half crazy Italian you met by accident, and who pretends to have danced with me at a ball many years ago. What possible interest could he take in a stranger's letter? Don't you think it is much more likely that either Inspector Hutchins or the constable who was with him and who drove the car managed to get it from you?

Stole it? Does it seem likely?

If they thought it was to serve the law, I daresay they would be capable of it, she returned coolly.

Dinner at Leders Abbey would have been a silent meal but for Lillas. She had taken tea with her mother's old servant, Mrs. Anning, at the Manor Farm, and had been posted up by that good woman in all the gruesome gossip of the neighborhood.

Mrs. Gutenberg, from the Royal Hotel had met Mrs. Anning coming out of chapel that afternoon, and had taunted her with the fact that the murders were going to begin again at Crayborne, and that her American lodger would be found to be mixed up in them.

Mrs. Gutenberg had never forgiven Harry's desertion of her hotel for the night.

her late visitor, Mr. Symonds, had taken or been thrown from a train on the preceding evening, she proceeded to make capital of the news.

Mrs. Anning had cross-examined Lillas closely about the rumored engagement of Lady Anne, but Miss Morgan was now so much afraid of making mischief that she kept her tongue in check.

Her uncle had written her a letter which for him was unobtainable enough, and she had answered it in a like vein, asking his permission to pass a few more days at Leders Abbey.

Of all these things Lillas talked, and to all the engaged couple listened almost in silence. The situation was strained, and Lillas felt relieved when Lady Anne, on passing from Harry at about ten o'clock, suggested that he should remain in London the next day.

Come down Tuesday afternoon, Lady Anne said, and since you say the inquest will take place on Wednesday early, it would be better for you to pass Tuesday night at the hotel at Bloxham.

All that Lillas tells me about the gossip here distracts me. And I must beg of you, Harry, to stay away as much as you can. It sends me almost mad to think that tongues in Crayborne will be making free with my name again!

I will do just as you wish in every thing, Harry said. And I am very glad you have Miss Morgan to stay with you through all this worry.

At the Cyril Hotel on the next day he received word that the inquest was fixed for ten o'clock Wednesday, and on the Tuesday he left Waterloo at 10.15 and arrived at the Manor Farm at a little after two, having walked over from Bloxham.

Regarding Mrs. Anning's strenuous endeavors to pump him, he learned from her that her protégé Sammy had disappeared from the neighborhood of Crayborne since the early afternoon of the preceding Saturday.

The news more than ever confirmed Harry in his determination to have Sammy arrested for the murder of his cousin. There was little doubt that owing to his defective mental condition, he would be confined in an asylum for life, should he not be executed, and that consummation in Harry's mind, would be the most desirable

way of disposing of a creature who was a danger to the community.

Before replying to the Abbey he cross-questioned Mrs. Anning on the subject of the secret means of communication between the Abbey and the Manor House.

The farmer's wife became red in the face, and confused in manner at once.

To tell the truth, sir, she blurted out at last, there are some things I am not allowed to talk about. And that passage is one of 'em. It's been stopped up for years. That's all I know about it.

No persuasion could induce her to utter another word on the subject, and Harry had little time to waste upon her in his anxiety to again behold Lady Anne.

He found her in the garden of the Abbey. She greeted him with outstretched hands and eager welcome in her eyes.

I have been so anxious to see you! she exclaimed, for I can tell you the exact truth about your cousin Reuben's death.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a constitutional remedy. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever, because of the mucous surfaces.

OLD PROSPECTOR TELLS HIS STORY

HIS REAL TROUBLES STARTED WHEN RHEUMATISM GOT HIM

Plasters, ointments and sulphur were alike useless, but Dodd's Kidney Pills Made a new man of him.

Princeton, B.C.—(Special).—All over Canada people are telling of the great work Dodd's Kidney Pills are doing, and even in the rocky mountain fastnesses where nature hides her mines men are telling of cures made and suffering relieved by the great Canadian Kidney remedy.

Wm. Murray, sixty-six years old, who has tramped the frontier as lumber jack, rancher, prospector, miner, hunter and trapper, and who has friends all over the west, is one of these. Many a tale of hardship and danger he can tell, but his first real trouble came when Rheumatism claimed him.

"I slipped on the mountain side and strained my kidneys and then my troubles all seemed to set in at once. I had nearly all the symptoms of Lumbago, Sciatica, Neuralgia, Diabetes, Dropsy and Bright's Disease," Mr. Murray states.

"Then I broke out in a terrible rash that spread all over my body and kept me in tortures. I tried all sorts of liniments and ointments and took sulphur enough to start a little haze of my own. But it was all no use. Then I tried Dodd's Kidney Pills, and all I can say is they made a new man of me."

An Always Ready Pill.—To those of regular habit medicine is of little concern, but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is none better than Parmelee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

U. S. MAY INTERVENE

NOW MAKING PREPARATIONS TO INVADE MEXICO

President Taft Wants Congress to Share the Responsibility for Intervention—Six Dreadnoughts are in Mexican Waters—Ten Other Fighting Ships in Readiness.

Washington.—President Taft and the cabinet are in accord that Congress shall share the responsibility for any intervention in Mexico.

Conferences between the President and his advisors ended with the understanding that should conditions in Mexico City become so much worse as to demand the landing of American troops, Mr. Taft will lay before both Houses of Congress the facts in a special message. Every preliminary was arranged for the action which might follow such a course. Thirty-five thousand men, of the army, navy and marine corps, were put in readiness for movement. The first brigade of the first army division just created, three thousand men in all, and the nucleus of an expeditionary force of 15,000 was put on marching orders ready to entrain for Newport News, Va., where army transports wait under steam.

Between 2,500 and 3,000 marines of the Atlantic battleship fleet and at the Guantanamo naval station, were prepared for immediate movement to Vera Cruz, where they might be kept aboard ship ready for landing to blaze an avenue of escape to Mexico City for foreigners, as was done by the great powers at Peiking.

Six Dreadnoughts with approximately 6,000 jacks and officers are now rushing under full steam for Mexican ports—four on the Atlantic and two on the Pacific. Ten other crack fighting ships of the Atlantic battleship fleet, swinging at anchor seventy hours off Guantanamo are ready for sea. They have approximately 9,000 officers and men.

Within call to supplement this force are the cruiser Denver, enroute to Acapulco, Salvador; transport Buffalo, at Corinto, Nicaragua; cruiser Des Moines, en route to Bluefields, Nicaragua, and due there Saturday; gunboat Nashville, en route to Honduras.

It is the feeling of the administration that these plans are all that can be done at this time, and that a sufficient number of warships have been despatched, not only to observe developments, but to practically create neutral zones at ports where they lie, in which Americans and other foreigners in Mexico may find safety.

It has been suggested in some circles that to land troops in Mexico would be such an act of war as can be justified only by a resolution of Congress. Many military officers fail to see any distinction between such landing of troops on foreign soil in case of anarchy, and the employment of marines for the same purpose, as was done in Nicaragua recently.

To meet the constitutional objection in case the transports were sent to Vera Cruz, it is understood that the commanding officers would be instructed not to land troops except upon Congressional authority.

Their presence on the coast, it is felt, would doubtless have a strong moral effect upon the contending factions in Mexico, and more than a week's time would be saved in placing the soldiers just where they would be needed in case danger to foreign lives and property should become more imminent.

IMMIGRATION PROSPECTS

Never Better, Says Mr. J. S. Dennis, of the C. P. R.

Montreal.—Immigration prospects from Great Britain and Northern Europe was never better, said Mr. J. S. Dennis, assistant to the president of the C. P. R., who arrived here from London. The liberal policy of disposing of the remainder of the company's land grant for the purposes of colonization has attracted the attention of the British and Continental papers.

It is not possible to obtain from Great Britain, he said, many agricultural colonists because that class is limited. Less than thirteen per cent. of the population of Great Britain and Ireland are engaged in agriculture, and if colonization is to progress a large portion of immigrants must be obtained from Northern Europe and the United States.

Naming Senators

Ottawa.—It was stated that when the bill increasing the representation of the senate in the west becomes law the two additional seats in the upper house to which Alberta would be entitled will be filled by the appointment of Dr. Brett, of Banff, a former speaker of the Northwest Territorial Assembly, and Richard Secord, a prominent Conservative of Edmonton, who was on one occasion a candidate for parliamentary honors.

Rushing C. N. R. Line East

Montreal, Que.—The C. N. R. officials here, state that out of the total of 450 miles of their line north of Lake Superior, some 130 miles of steel have been laid east of Port Arthur and 70 west of Sudbury, making two hundred miles in all. The contractors report that there will be no difficulty whatever in completing the grading and track laying of the full 450 miles before the end of the year.

C. N. NEW LINES

Programme of Work for Prairie as Previously Announced in Province

Toronto.—The announcement of the Canadian Northern Railway's construction programme for 1913 was made recently.

Hundreds of miles of new lines are to be constructed, and as many men as the C. N. R. are able to secure will be given work on the construction.

In Manitoba a stretch of five hundred miles beginning five miles east of Portage and extending to near Steburn, will be the main development. The Inwood-Fisher River route will be graded forty miles.

The construction in east Saskatchewan will include a line from Sturgis for a distance of 44 miles towards Hudson Bay. A like distance of line will be constructed on the Gravelburg branch. The line through Gravelburg toward Swift Current will have more than fifty miles added to the present grade.

The McRorie-Outlook line will be extended nearly 30 miles east of that point and about twenty miles west of it.

The Regina-Moose Jaw line, and the Yorkton branch are also included in the programme.

Alberta is to see many of the Alberta lines constructed this summer. The Camrose southwest branch is the principal one, and the sixty miles of new line on this will be undertaken on the Edmonton-Calgary line. The line south of McLeod, at Pincher Creek, will be graded for about forty miles and work on the Calgary-Lethbridge branch will also be undertaken. The linkup up of the Bruthers and Vermilion connection and the tapping of the Brazeau coal fields are to be rushed. The Peace River branch is also to have a start made on it. The Calgary-Saskatoon branch is now practically completed, and service will be established on this line within a few months.

Port Nelson Terminal for Line to Bay

Ottawa.—H. P. Hazen, the government harbor expert, who has been surveying the approaches and the harbors at Port Nelson and Fort Churchill, with a view to definite selection of the terminal for the Hudson Bay Railway, which is now being built north and eastward from Le Pas, arrived in Ottawa recently.

The question of the site of the terminal will be settled at once, said Hon. Frank Cochrane. It is very important that we should definitely decide at once upon which port will become the terminal of the railway that is now under construction. It is a very difficult problem, as there is much to be said for and against both Fort Churchill and Port Nelson.

While there can be no official statement until after Mr. Hazen in his report to the minister, and it has been given due consideration it is generally believed that Port Nelson will be decided upon, although there are serious difficulties from an engineering standpoint.

Port Nelson is closer to the wheat fields; the railway would run through a better country, and the line would have lower grades. Fort Churchill undoubtedly has the best harbor, but the surrounding country is barren land and the road for some 75 miles would have to run through muskeg, and it is feared that it would be almost impossible to get a good road bed.

Port Nelson also has an ideal location for a township, railway terminal and docks, while the character of the country at Churchill is such that it would be difficult to lay out a town and terminals.

MUSICIAN RESENTS KAISER'S BUTTING IN

Conductor of Royal Opera House in Berlin, Disgusted, Quits His Job

Berlin.—It is stated the German emperor who likes to be thought an authority on music, as well as on other matters, is responsible for the sudden resignation of M. Emil Paur, the conductor of the Berlin Royal Opera House. The Kaiser has always insisted on advising musical conductors at the opera house in regard to their work. He has especially pronounced ideas as to the manner in which Carmen should be conducted.

His majesty had a conversation with M. Paur some time ago on this subject, and criticised his methods. On his last visit to the opera the Kaiser noticed that M. Paur remained faithfully to musical traditions, and ignored his hints.

The emperor thereupon summoned Count Huelken, the court official who is at the head of the royal opera, and expressed his dissatisfaction in the strongest possible terms. The next day M. Paur resigned.

It is true that the intendency-general of the royal theatres authorized the statement that the above account is inaccurate and that Herr Paur is away on sick leave and is expected to return to the Berlin opera. But the management does not deny that the situation at the opera is not harmonious or that Herr Paur has to contend with the disapproval of the Kaiser. Further, the management and Herr Paur differ on points of fact, for the musician in reply to a telephone inquiry this evening stated he had sent in his resignation, which has been accepted. He only assumed his post at the opera in February.

Calcutta.—In a recent return issued by the British Indian government 302,425 girls under 5 years of age, are described as wives, and 17,703 as widows.

A NATIONAL APPEAL

WORLD RINGS WITH PRAISE FOR ANTARCTIC HEROES

Movement Has Begun for a National Memorial and to Provide for Bereaved Families of Dead Explorers—Admiralty Regards Loss as if Heroes Had Been Killed in Action

London.—The committee of the British Antarctic expedition will issue a national appeal for a fund to provide for the relatives of the dead explorers. Among those signing the appeal is Lord Strathcona.

The Admiralty issued an official expression of its profound regret at the loss of the heroic officers, saying:—

"The circumstances under which Captain Scott and his comrades lost their lives prove with what constancy and resolution they carried out their duty for which they volunteered. The Lords and Commissioners of the Admiralty consider that their loss should be regarded as if they had been killed in action, and their story will long be remembered with honor by the navy."

Nothing has been decided as to what steps the government or the Admiralty will take, but full confidence is felt that ample provision will be made.

The lord mayor of London has asked the first lord of the admiralty, Mr. Churchill, whether he will open a fund and Mr. Churchill has not replied, but the lord mayor says: If it should be found necessary to open a fund, the Mansion House will rise worthily to an occasion which affects us all.

The Daily Telegraph, which has opened a fund for a national memorial to Captain Scott and his dead comrades, says:

"We owe it to ourselves and to posterity to place on record in some worthy, substantial and enduring form our sense of the glory of these men and of the unaging glory they have shed on the British name."

Among the first subscribers to this fund are: Rear Admiral Peary and Baron Rothschild.

The London papers publish tributes from the European sovereigns and explorers and scientists of all nationalities to the heroic devotion of the explorers, and expressing sympathy for their families. These tributes are especially numerous from America.

The general feeling expressed is that no honor is too great to be rendered to the dead heroes, and that, therefore whatever is done by the government should not interfere with the spontaneous generosity of the public in behalf of the wives and families of those who sacrificed themselves in the nation's honor and service.

CAPTAIN SCOTT'S DAILY RECORD

Story of Trip to be Published—Remainder of Party Are Well

Christchurch.—The Terra Nova brought every written record of the southern party, including the private diaries which will be handed to the relatives of the dead explorers.

Captain Scott kept a daily record until March 24, and spent the last day in writing his message to the public. The bodies could have been brought back, according to Commander Evans, but all agreed to leave them in their white mantle, where they had worked and died.

Commander Evans is not inclined to speak of the tragic side of the expedition and has forbidden his fellow-officers to speak. He will complete Captain Scott's story for publication. All on board the Terra Nova look to be in good health and bear no outward signs of the hardships they have undergone.

Mines Branch

Ottawa.—When Hon. Louis Coderre became secretary of state it was announced that the mines branch now under the interior department would be added to the state department, thus increasing its work and importance. An order-in-council is now going through making the transfer formally. The department comprises the mines branch and the geological survey.

Did Not Leave Vatican

Rome.—The Vatican denies absolutely the report published in America that the Pope left the Vatican to visit the home of his dead sister. The authorities at the Vatican add that such action on the part of the Pope would be an utter contradiction of the Pontiff's character, as he considers it his sacred duty to remain within the Vatican walls.

15 Apaches Wreck a Ship

Paris.—Fifteen apaches broke into a wine shop in Montmartre at 1 o'clock in the morning, wrecked the bar, took the money from the till and tried to murder the proprietor. Three of them were arrested by the police during the night, but not before a policeman had been wounded and one of the apaches had been shot through the shoulder.

Grace Darlings' Boat

London.—It was reported at a meeting of the council of Armstrong College, Newcastle, that Lady John Joice-Cecil had presented to the college the boat in which Grace Darling and her father went to the assistance of the crew of the wrecked Forfarshire on Farne Island in September, 1838.

IMMORALITY CAUSE OF MUCH POVERTY

Some Interesting Evidence Given Before Old Age Pensions Committee

Ottawa.—Causes of poverty and dependency in Canada were dealt with in an interesting manner by Dr. W. R. Bruce Smith, Ontario Inspector of public charity, giving evidence before the Old Age Pensions commission. He declared immorality as one of the most prolific causes of poverty and divided the reasons for people becoming dependent on others by the following percentages:

Intemperance, 21; Inefficiency, often congenital, 22; Improvidence, 16; shiftlessness, 15; Immorality, 13; stupidity, 7; Ignorance, 5. In Ontario, he pointed out there are 15,000 in houses of refuge, and 7,000 receiving municipal aid and otherwise helped.

Dr. Bruce Smith advocated the segregation of all feeble minded women during the maternity period in industrial refuges and the application of reformatory methods to first offenders. He believed that a man or woman convicted three times under the criminal code should have custodial care for the rest of their lives, not behind prison bars, but with outdoor work where they would be self-supporting but prevented from reproducing their kind. He favored in Canada an old age pension system, similar to that which obtains in New Zealand, but with some amendments. The amount he suggested, would be \$120 a year, payable monthly and diminished in proportion to other income or the possession of net unencumbered values of property by over \$500. By this means a large number would be kept out of houses of refuge.

Before the committee rose Mr. Stubbs, president of the United Miners of Alberta, gave evidence in favor of the inauguration in Canada of a system of old age pension. He thought it would result in great benefit to the working classes generally and to none would it appeal more than the workers in the mines.

Mr. Stubbs gave the committee some interesting information as to the conditions under which work is done in the mines of the West.

C. P. R. Fighting for Traffic

London.—The Canadian Pacific's determination to secure for Canada a place in European emigration countries greatly angers their German rivals, of the Hamburg-American Steamship Company and allied German lines. They are fighting for the maintenance of their present monopoly. Berlin journals pressed to be under their guidance are embarking on a campaign against Canada, lauding Argentine as a better place for German and Austrian emigrants. Balmleau and his associates are especially eager to retain control of stations originally established by the German government on the frontier, but now manipulated by the Hamburg-American and other pool lines to keep huge emigration traffic for their ships running to New York and other American ports. The Austrian government resents delays and hardships to Austrian emigrants who suffer at these control stations on the way to Hamburg and Bremen, hence their encouragement of the direct Canadian Pacific service from Trieste to Montreal, commencing March 20th. A good share of Austria's 300,000 excellent emigrants yearly should be diverted to Canada via Trieste. It is also expected that the tussle over German control stations will result in Canadian lines from Antwerp and elsewhere securing a fair proportion of emigration traffic by northern ports.

RAILWAY CHARTER RENEWALS

Calgary, Edmonton and Fort McMurray Ry. Bill Passed

Ottawa.—The old question of a renewal of railway charters came up before the Railway committee when a Northern Railway Company asked for a renewal. The Hon. Frank Cochrane, Minister of Railways, thought that there should be a yearly renewal of some provision to see that companies getting charters proceeded with the work.

Major Currie strongly objected to an act to incorporate the Calgary, Edmonton and Fort McMurray railway, on the ground that it was going over the exact territory of the Alberta and Great Waterways Railway Company line, whose troubles have resulted in litigation before Canadian and Imperial courts.

They had beaten the Alberta Government and were prepared now to go ahead and now another charter was granted over the same territory. J. E. Armstrong, East Lambton who was in charge of the bill, assured the committee that it was not going over the identical territory.

The bill was passed.

To Distract Attention of the Dominion

London.—The Yorkshire post, Unionist, puts forward the suggestion that the recent manifestation of Germany to conform to the sixteen to ten standard in battleships between ourselves and Germany may be perhaps because Germany wants to distract Canada's attention from the necessity of contributing to the Imperial fleet.

This of course, the Post continues, is mere speculation. A point more immediately noteworthy is that Germany's readiness to moderate the role of her warship construction has not apparently been officially made known to our foreign office. It is doubtful if in any case it would affect the British naval program of this year, which contemplates an extra two millions sterling expenditure.

THE SUNDAY SCHOOL

LESSON VIII.—FIRST QUARTER, FOR FEB. 23, 1913

Text of the Lesson, Gen. xiii, 1-12. Memory Verse, 8.—Golden Text, Prov. x, 22.—Commentary Prepared by Rev. D. M. Stearns.

Abram's going down to Egypt was certainly a mistake on his part, for there was no altar to the Lord there nor any new revelation from the Lord, and Abram dishonored the Lord by fear and deceit and brought upon himself the rebuke of a man of the world, a brazen king. By all our conduct we are either honoring or dishonoring the Lord, magnifying Him or magnifying ourselves, and we would do well to test everything by this test. He is able to take care of His own people and His own work under all circumstances, and all He asks of us is a whole heart for Him, such an abiding in and separation unto Him that He shall not be hindered in working out His good pleasure.

When at any time we wander away from the Lord the only thing to do is to return as quickly as possible, for He is ever calling the wanderer to return, as in Isa. iv, 7; Jer. iii, 14, 22; Hos. xiv, 1, 2, and the word of encouragement awaits both the unsaved and the saved, "Him that cometh to Me I will in nowise cast out" (John vi, 37). It is good to see Abram back at the place of the altar between Bethel and Hai and to hear him calling on the name of the Lord (verses 3, 4) and to know that the Lord has abundantly pardoned him according to His word.

It may seem strange to some to see Abram very rich in cattle, in silver and in gold (verse 2) notwithstanding his wanderings from the Lord, but let such consider their own merits and say if they have not been dealt with in loving kindness beyond all their deserts. Sometimes the Lord would draw us back to or closer to Himself by His great mercies, and we have all and always reason to say: It is of the Lord's mercies that we are not consumed, because His compassions fail not" (Lam. iii, 22).

Lot also was rich in flocks and herds, and his herds and those of Abram could not agree. So to prevent strife Abram told Lot to take his choice of territory and that he would take that which Lot did not desire. Thus magnanimous could this great man afford to be because he was the friend of God and the Lord was his portion. Being a witness for God before the Canaanites and Perizzites who dwell in the land, he could not tolerate strife, for the servant of the Lord must not strive. (II Tim. ii, 24).

Meekness, lowliness and submissiveness are always becoming in a child of God, but never strife, not even to maintain our so called rights. We are exhorted to take wrong and suffer ourselves to be defrauded rather than strive before unbelievers (I Cor. vi, 8, 7).

Without regard to the character of the people who lived on the plain, who are described as wicked and sinners before the Lord, exceedingly. Lot chose the plain of Jordan, because he saw that it would admirably suit his numerous flocks and herds (verses 10-13). It is said that he lifted up his eyes, but it was only to behold the low and fruitful valley of the Jordan. He did not behold the Lord nor consider His will in the matter. It was a case of self only.

It was good for Lot to be with Abram, but not so good for Abram to have Lot with him. Separation from Lot was really to Abram's advantage and evidently pleasing to the Lord, for the Lord had another message for Abram as soon as Lot was separated from him (14-17). There was a renewed assurance that the Lord would give him the whole land and the promise that his seed would be as the dust of the earth (verse 16).

In verse 18 we see this friend of God dwelling with him at Hebron, which signifies fellowship, away above the sinners of Sodom and in communion with God with his altar unto the Lord. This prepares us for the record in chapter xiv of the capture and captivity of Lot and his goods by the four kings, while Abram, living above and away from all the turmoil, is able to go with his 318 trained servants and rescue Lot and his people and all his goods. While mixed up with the world we cannot expect to have victory over it, and it is only as we dwell at Hebron in fellowship with God that we can hope to rescue others from the god of this world. First we see Lot pitching his tent toward Sodom, and then we see him dwelling in Sodom. (xiii, 12; xiv, 12). Later we shall find him a ruler in Sodom, sitting in the gate—settling on in the world.

In the end of chapter xiv we have a wonderful record of a most remarkable man, a king and a priest, type of the Lord Jesus Christ when He shall be a priest upon His throne, a priest forever after the order of Melchizedek (Zech. vi, 13; Ps. cx, 4). Here we have for the first time the title: The Most High God, possessor of heaven and earth, and because Abram was blessed by Him he was able to turn his back upon the tempting offer of the King of Sodom concerning the goods. If the church today knew the Most High God and His blessing she would never be guilty of seeking the goods of Sodom to help her carry on her work. There is nothing so grand as to know God and find our all in Him.

Westcott News

Owing to the bad weather which
obtained on Monday, Feb. 3rd, the
social held by the U. F. A. in Rugby
school house was hardly as big a suc-
cess as was expected, but the com-
mittee are now making arrangements
to hold another on the first Monday
in March, when Mr. Swift of the
Grain Growers Grain Co. of Calgary
will be present. The ladies are re-
quested to bring eatables.

A farewell party was tendered Miss
Fay Miller before leaving Westcott
and an enjoyable evening was spent
by all present.

Wm Miller's sale was a decided
success, everything bringing good
prices. They intend making their
future home in Oregon.

Mr. and Mrs. McLeod, who so
successfully conducted the west end
store for the past year, have left for
Regina, where they will make their
future home. A farewell party was
tendered them at the home of Mr.
and Mrs. A. Robertson. C. F. Moir
has again taken charge of the store.

Mrs. Harry Levagood, who has
spent the winter visiting all her old
friends in the vicinity, left to join her
husband at the coast.

Austin Gallacher, who has been a
resident of Westcott for many years,
left for Calgary, where he intends
making his home in the future.

We very much regret the departure
of so many true friends, but such is
life, and we wish them every success
in their new homes

Mrs. J. H. Braun returned from a
few weeks' visit to her sister at Bot-
tress.

Ezra Berscht has resigned his po-
sition at Calgary and returned to
Westcott.

Miss Maggie Vipond left for Ed-
monton last week after spending a
few months at home.

Steer Feeding Com- petition

Everyone connected with the steer
feeding competition inaugurated by the
animal husbandry branch of the Cana-
dian Pacific Railway, department of
natural resources, last fall, is enthusi-
astic over the prospective results of the
contest. It will be remembered that the
animal husbandry branch supplied farm-
ers' sons in the irrigation block east of
Calgary with eight steers each. These
steers are being fed by the contestants
during the winter months and will be
disposed of at the Calgary Spring Stock
Show. The boys get the difference be-
tween the buying price of the feed and
the selling price in the spring. Be-
sides this they have a chance at \$250 in
cash prizes.

Thirty-four boys entered the contest
and are each and every one going to
make large profits on their winter's
work. Inspectors from the animal hus-
bandry branch have just completed vis-
its to all the participants and declare
that in every case the animals are in ex-
ceptionally fine condition. It is an im-
portant fact that while the boys had
their own choice in feeding methods,
they are all feeding in the open and the
way the steers are putting on weight
shows the wisdom of winter feeding out
of doors. Arrangements are being made
for showing the various lots in corrals
at the Spring Show.

The results of this competition, which
is just a small beginning toward wide-
spread competitions, will be two fold.
In the first place the contestants should
make enough from their winter's work
to go into feeding operations on a small
scale with their own capital. But the
more far-reaching result will be in the
actual demonstration of the profits that
winter feeding returns. All the boys are
keeping full accounts and the final re-
sults should be interesting to every
farmer in Western Canada.

Make More Butter

Saskatoon, Feb. 5.—Two tons of
butter were condemned here today
and there are several tons more to be
examined. The names of dealers are
withheld.

This morning a start was made on
the examination of some two dozen
more samples of butter.

"Raw material for soap," was the
way Commissioner Sclanders ex-
pressed his opinion of one sample
that lay before him. It is on the
basis of palm oil, only it is not half so
clean.

"This condition of affairs, the gen-
eral flooding of the western market
with this class of stuff is simply a
lesson showing the necessity of more
mixed farming," he continued. "It
is an absolute shame that figures show
that the production of vegetables and
other food stuffs from the farm were
practically the same in 1912 as they
were in 1908."

"Wholesale firms in the east are
able to flood the country around here
with this imitation product, simply
because there is no standard locally
produced by which it could be
judged."

Citizens Band An- nual Meeting

The executive and members of the
Citizens Band held their annual meet-
ing on Friday night in Shantz hard-
ware store. There were not as many
of the outside members of the execu-
tive present as there should have
been, but the band was fairly well
represented.

In the absence of the President,
Mayor H. B. Atkins, the Vice-Presi-
dent, H. E. Osmond, took the chair.

Mr. E. Perschbacher, Sec. Treas.,
gave the financial report as follows:

Communications were then read.
Two resignations were handed in, one
from E. Perschbacher as Sec. Treas.
and the other from Mr. H. Gather-
cole as bandmaster. The communi-
cations were laid over.

The election of officers for the year
then took place, as follows: Presi-
dent, Mayor H. B. Atkins; First Vice
President, H. E. Osmond; Vice-Presi-
dents, T. W. Cuncannon, W. Wrig-
giesworth, H. W. Chambers, J. A.
Findlay, B. A. St. Clair, W. G.

Wanted

Liesemer, J. R. Good, G. B. Sex-
smith, Members of Band of Accu-
sative, G. H. Liesemer, Ed. Weber,
Ed. Eisher, A. Gertz.

The resignation of Mr. Persch-
bacher was then taken up and dis-
cussed. Mr. Perschbacher absolutely
refused to consider the position again
for another year and Mr. Alf. Weber
was elected to the position unani-
mously.

The resignation of the bandmaster
was then taken up. Mr. Gathercole
was urged to again accept the position
by all present. In reply he stated
that it had been hard uphill work to
keep the organization going through
lack of interest by the members but
that if they would promise to give him
better support he might reconsider his
resignation. Everybody present agreed
to do this and Mr. Gathercole was
again appointed bandmaster.

A committee composed of Messrs.
Osmond, G. H. Liesemer and H.
Gathercole was formed to take up ad-
ditions to the band constitution.

Messrs. G. H. Liesemer and H. E.
Osmond were appointed a committee
to interview the citizens for donations
to clear off the small indebtedness of
the band. It is hoped that there will
be a liberal response.

The meeting then adjourned.

This is the season of the year when
mothers feel very much concerned over
the frequent colds contracted by their
children, and have abundant reason for
it as every cold weakens the lungs, low-
ers the vitality and paves the way for
the more serious diseases that so often
follow. Chamberlain's Cough Remedy
is famous for its cures, and is pleasant
and safe to take. For sale by all dealers.
